

SOD WIRE STAPLES

Specs

9 gauge

1,000 per box

Pallet size of 48 boxes

Used for seaming turf and anchoring down the turf

Features

The U-shaped, 9-Gauge sod staples are ideal for securing artificial turf seams and erosion blankets or geotextiles in place. The legs of the staples are 6 in. long and arch of the staples is 1 in. wide.

- 6 in. Long staples dig into soil or base rock for good grip
- U-shaped design for easy installation
- Holds landscape fabrics in place
- Can also be used to secure irrigation hoses
- 9-Gauge un-galvanized wire
