

PRE-EMERGENT WEED CONTROL

Specs

Weed preventer and Herbicide

1 bag treats 10,000 to 14,000 sf

Controls over 40 types of
grass and broadleaf weeds

Features

Provides pre emergent control of crabgrass and other annual grasses and broadleaf weeds listed on the label.

Provides early post emergent crabgrass control in limited conditions

Consistently sized particles reduce segregation potential

Dimension specialty herbicide provides BOTH preemergence and early postemergence control of crabgrass, and season-long control of crabgrass, goosegrass, foxtail, and spurge.
