Featuring built-in antimicrobial product protection to inhibit the growth of bacteria, mold, mildew, and reduces odor.

TOUGH PLAY

Tough Play turf takes performance to the next level! A Lisport test was conducted to measure durability in terms of traffic resistance, calculating approximately 8 years of wear over the duration of 20k cycles. Also tested to 50,000 cycles before any change in appearance could be detected. Even after that level of testing usage, no fiber splitting occurred. This high bulk texturized thatch yarn provides added body to allow the blades to stand up and bounce back providing durability and performance.

FEATURED BENEFITS

- ☑ S blade with Luster Guard™ ribbed surface texture is the lowest luster UV stabilized turf yarn in the industry. These microscopic ribs eliminate the shiny mirror effect which makes artificial grass look like plastic.
- ☑ The ribbed blade also eliminates weak points in the fibers creating unprecedented split resistance.
